DETAILED ACTION

1. This Office Action is in response to Amendment filed 6/11/2004.

Allowable Subject Matter

2. Claims 1-12 are allowed.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Charles Wands on September 10, 2004.

The application has been amended as follows:

In Claim 1 (Currently Amended), in paragraph (b), on line 1, "deliberating" was changed to "deliberately".

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

The prior arts of record taken alone or in combination fail to teach, anticipate, suggest or render obvious the claimed invention, as recited in the amended Claim 1, of a method for a communication link of causing a remote site "to select one of at least three different numbers of errors, associated with respectively different ranges of link performance parameters, wherein at the remote site, deliberately modifying a

prescribed digital code sequence as received by the remote site, by introducing the selected number of errors into a prescribed digital code sequence as transported over the link from the remote site to a query site”.

Also, amended Claim 7 recites a method for a communication link of “deliberately modifying a prescribed digital code sequence as received by a measurement site, by introducing a selected one of at least three different numbers of errors, associated with respectively different ranges of link performance parameters, into the prescribed digital code sequence as looped back over the communication link to the test site”.

Consequently, independent claims 1 and 7 are allowed over the prior arts of record. Claims 2-6 and 8-12 are directly or indirectly depended upon the independent claims and therefore are also allowable.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
